This year, we are pleased to announce at least one “Lunch with Vendors” where tables will be set up throughout the Vendor Hall allowing for attendees and vendors to eat together.

We are also drafting plans to include vendor visits in a gamification style event where attendees will be awarded points for visiting vendors. These will then determine the number of entries into prize pools. Attendees will be able to win points by attending training sessions, interacting with vendors all in order to increase attendee/vendor interaction. We realize vendors are making a large commitment and investment to attend our conference and in turn, we will work hard to promote our vendors and the importance of vendor/attendee engagement.

We also planning at least two sessions throughout the conference where the Vendor Hall will be open and no other activities will be occurring to increase traffic to the Vendor Hall.

The vendor hall and all conference training will be held inside the Convention Center in close proximity.
