## KACP KENTUCKY GENERAL ASSEMBLY LEGISLATIVE REPORT FOR

### WEEK ENDING JAN. 21

Friday - marked the 13th day of the 60-day regular session. As of Friday, 104 bills had been filed in the Senate; in the House, 341 bills have been filed.

#### ***HOUSE BUDGET***

The House approved two bills that propose spending a record \$110 billion, including \$300 in annual KLEFPF training payments. The bill now heads to the Senate, where KACP will continue to regularly meet with Sen. McDaniel to monitor those efforts.

#### ***REDISTRICTING***

Gov. Andy Beshear vetoed two of the redistricting bills the legislature enacted during the first week of the session. The House and Senate overrode the vetoes Thursday, and the Kentucky Democratic Party challenged the plans' constitutionality by filing a lawsuit in Franklin County.

In a move that has left elected officials concerned about the upcoming campaign season, Rep. Jerry Miller, R-Louisville, filed [HB323](#), which would change Tuesday's filing deadline to May 31 and the primary to the first Tuesday in August due to potential changes that could come about due to the Democrats' lawsuit.

## ***OTHER ISSUES KACP IS SUPPORTING; AWAITING ON BILLS TO BE FILED***

### **Virtual training**

For months, KACP has been working with Rep. Kim Moser, R-Taylor Mill, and KLC on legislation that would increase the number of training classes that DOCJT offers. KACP believes that modernized virtual training will help retention and recruitment by eliminating the need for officers to regularly travel to Richmond for training. It will also save cities money and appeal to younger officers who have been raised on computers.

KACP has met several times with officials from the DOCJT and the Justice and Public Safety Cabinet. While all sides agree that some level of virtual training should be increased, there is still some disagreement over how to implement those changes and the number of type of classes that would be offered virtually.

KACP will continue working with Rep. Moser and KLC on the legislation.

### **Amendments to KRS [70.290](#)**

Another way to retain officer is to increase the amount of time a law enforcement officer must spend with a department before being able to move on. Too many officers are being hired by a department, going through training – which must be paid by cities and counties – and then leaving the department for a higher-paying job in another community or state.

KACP is working on legislation that would increase the mandated time an officer must spend with a department from three to five years as outlined in KRS [70.290](#). We also are asking for changes that would put Public University law enforcement departments and state agencies under the same rules as cities and counties.

### **COVID bonus pay**

Since 2022 is a session in which the legislature enacts a two-year budget, and with the state sitting on a projected \$2 billion surplus, there has been talk from Gov. Beshear and some legislators about offering a COVID bonus to front-line workers and first-responders. If those discussions advance, KACP will work to ensure that law enforcement is included in the bonus payout.
